By FML

The air "was blue" the other day at our house, not with language but with smoke. It was something about a blown fuse that turned out to be a wire short.

Any way, the house is still there, even though it now has established a mysterious practice of locking its doors, mainly the bathroom door without anyone inside.

Kids usually lock themselves in, but in our case the bathroom locks itself in. We haven't yet figured it out, only how to pick the lock when it's obstinate.

104-104-104

With "blue" air and self-locking bathrooms, 706 E. Eighth St. should arouse some curiosity as houses go.

But in conversations with various householders, owners, renters and otherwise, we find such things all too common.

Inexplicable plumbing problems, floors that heave to and fro, walls that whistle and windows that vibrate when a train passes - these are part of a householder's everyday life.

Much of the cause is found within the house itself. We call it "kids."

Everyone knows Leslie, now 4. She is going into the "outside age". But her "inside" successor is able and growing in his ability to keep the house moving. His name is Martin, 1.

If anyone recalls the crazy nephew of the two old ladies in "Arsenic and Old Lace", we could compare his antics with the same, but zealous actions of ol' Martin.

He is only about 5 pounds lighter than Les, but a foot or two shorter.

And when he charges out of one room into another, trailing the better part of the kitchen behind him, it's a sight and a sound.

He does a dance on a coffee table, then dives through open space into the couch, bouncing all the way and smiling deviously, acting as if he didn't know the house would soon come unglued.

He takes plastic fruit and plays baseball with the cat or any other person or thing in the vicinity. He sits on tables and eats and eats and eats... Once in a while, he goes through the bottom of a chair.

104-104-104

He is one reason that "blue" air and selflocking bathroom doors don't bother us anymore. If it had happened a few hours earlier, we would have been sure Martin somehow managed it.

### Area Youths Attend Attorney General's Juvenile Conference

Three area youths have returned from an Attorney General's Youth conference held last weekend to discuss and consider action to reduce the state's juvenile delinquency problems.

Danny Thweatt of Cameron, Gary Palm of Thorndale, and Don Cumbe of Rockdale attended the conference.

The Rockdale Lions Club, Cameron Lions Club, and the Thorndale Chamber of Commerce sponsored the delegates trip.

H. D. Maxwell, County Schools Superintendent, and Marvin Handrick, Thorndale Postmaster, assisted the state attorney general's office in making arrangements for the conference.

## Yoemen Boosters Selling Tickets

The Cameron Yoemen Booster Club is kicking off the 1963 football season with a ticket drive that ends Friday, August 23, according to Lavert McKinney, club president.

McKinney also announced that a Booster Club meeting will be held next Monday at 7:30 p.m. in the ag building at Yoe High School.

the poultry industry moving forward. Pictured from left to right are Fuchs, immediate past president of the TPIA; Fred Hanson of Cuero, first vice-president; D. M. Butler, Santa Ana; W. J. Moore, Bryan; and Amel Willingham, second vice president of Austin.

### State Officers Comment

## Ag Issue Well Received

The Herald's Conservation and agriculture edition, published August 8, is being well received by area and state agriculture offices as well as local agriculture participants.

The edition, written by Herald staff feature writer, Lloyd Albertson, covered the Milam area's conservation program from government agencies to state-wide conservation programs such as operation B.I.G. (Operation Blackland Income Growth).

Local Soil Conservation offices have received letters of appreciation from area conservationists.

Meryl G. Carter of Austin and Ter-elton Jenkins, Field Information Chief stationed in Denver, Colorado.

Jenkins, a man familiar with soil publications, wrote: "the soil conservation section was the best he'd seen of its kind-ever."

He went on to praise the editorial staff and local officials for their part in helping with the section. He also requested three more copies of the paper to send to Washington D. C. and national soil conservation officers.

The section was supported through numerous agricultural

backers from the Milam area, large landowners. Its thorough readership is apparent.

The section was one of several the Herald has published in recent years concerning local matters. Political sections, published biennially, have brought equal favorable reaction.

And Cameron's Centennial edition, also edited and compiled by feature writer Albertson, is standing as a research document used in classrooms and business offices. One of the features placed Albertson in the finals of a writing research contest.

### Reception Planned For School Faculty, Local Businessmen

A reception for the Cameron School Faculty and their families will be held Wednesday, August 28, in the Methodist Fellowship Hall, from 5:30 to 7:00 p.m.

Also invited are all Chamber of Commerce members and their wives. Retired teachers will be recognized at the reception, the first of its kind held in Milam area.

The reception is being arranged by Chamber of Commerce Education Committee to acquaint the businessmen and women of Cameron with their school administration and faculty members.

Committeeman, Frank Luecke, said, "This reception will give the businessman an excellent opportunity to personally become acquainted with the Cameron School personnel."

"A thing like this can mean the difference in interest, enthusiasm, and sincerity on behalf of the student and parent toward better school work and a better over-all school system."

Other committee members are: Don Humble, John Henderson, Jr., Alton Fuchs, Rev. C. A. West, Charles Zeigler and Drayton McLane, Jr.

### PUBLIC NOTICE

A public hearing will be held at the next City Council Meeting, September 3 at 5:00 p.m. in Cameron City Hall to approve and adopt the 1963-64 city budget.

Mayor Coleman Duncum told the Herald that the city council has approved all preliminary work on the budget and that it will be open to question at the September 3 meeting.

# Registration Set For Area Youths

## Area Fires Cause Marvin Rubac, 27 Property Damage Dies In Accident During Dry Week

Fire destroyed several hundred dollars of property in the Milam area during the past week and several menacing grass fires kept Cameron Volunteer firemen busy day and night.

A pasture fire burnt close to 300 acres of land belonging to Joe Hickman and adjoining farmers about a mile east of Cameron Saturday afternoon, below the Cameron Country Club.

The blaze raged for over an hour with a bumper-to-bumper cavalcade of residents keeping a watchful eye on the fire in case of a wind change that would send the blaze into the outskirts of town.

Police had to direct traffic and slow cars to a snail's pace in order to allow the Fire Department and other volunteer workers sufficient working space.

Another alarm at Ben Arnold late Saturday afternoon sent the firemen to the scene of an overturned trailer truck loaded with cotton.

Most of the cotton was burnt but the fire was extinguished before considerable damage was done to the truck.

About a hundred bales of hay and barn were destroyed about noon Sunday at the Bill Thweatt farm on the Jones Prairie road near Maysfield.

The Cameron fire department prevented the blaze from reaching the Thweatt home but the barn was destroyed along with connecting fence. Estimated damage totaled \$500.00.

Mrs. Bill Thweatt said they did not notice the blaze until one of the Thweatt children caught a glimpse of smoke coming from the hay barn while the rest of the family was eating dinner.

Cause of the fire was not determined.

Two fires caused minor damage to Holder's gin in Maysfield and Holder's Farmer's gin in Cameron later Sunday afternoon.

A cotton press was ruined in the Maysfield gin and some damage was done to the burr-sack room of the Cameron gin. The fire was caused by an over-heated motor.

Both gins were back in operation Monday morning.

Other grass fires caused minor damages later in the week.

One burnt several acres on the east side of Roger's Airport in Cameron and another minor fire was extinguished by the fire dept. Monday afternoon at 900 South Rusk St.

### Jones Prairie Woman Bitten By Rattler

Miss Ethel McKinney, a Jones Prairie resident, is listed in critical condition at St. Edwards Hospital after being bitten by a rattlesnake Wednesday morning.

Miss McKinney was bitten on the leg, possibly twice, while moving a water sprinkler in her yard.

### Baskin Purchases George Childress Insurance Agency

George Childress and James M. Wiggs have announced the selling of their Insurance and Real Estate agency to Gordon S. Baskin.

All three have been Cameron businessmen and civic leaders for a number of years.

Childress and Wiggs will continue their operation for several months until all present business is completed.

Baskin will make an immediate move to the Childress location at 100 South Houston. He has been in the insurance business for twenty-four years.

A one-car accident took the life of 27-year-old Cameronite, Marvin Edward Rubac, early Sunday morning when he lost control of his 1955 Chevrolet pickup on a curve at the intersection of U. S. Highway 190 and Farm Road 845 two miles west of Cameron.

Rubac's body was not discovered until 5:42 a. m., approximately an hour after the accident occurred, according to Highway Patrolman Durwood Kennedy, investigating officer.

Kennedy said that Rubac was traveling east on Highway 190, into Cameron, when he lost control of his pickup and veered to the right, knocking down two roadside guardrails and back to the left, knocking over a stop sign and a Farm to Market Road marker.

Rubac was thrown from the automobile and pinned under the shock absorber of the right rear wheel. He apparently died instantly.

A passing motorist, Herman Ripkowski of Cameron, found the body and called Cameron's Police Department to the scene at 5:42 a. m.

Kennedy called Justice of the Peace Brock to the scene and he pronounced Rubac dead at the scene.

Rubac was a 1955 graduate of Yoe High School and was employed by Alcoa in Rockdale. He lived most of his life in the Cameron community except for about a year while he was employed as a welder by Hou-Tex Company in Houston.

Funeral services were held Monday at 4:00 p.m. at Buckholts Brethren Church, Rev. H. E. Beseda officiating. Burial was in Hope Lutheran Cemetery at Buckholts with Marek-Burns Funeral Home in charge of arrangements.

He is survived by his wife; his parents, Mr. and Mrs. Frank J. Rubac of Buckholts; his grandmother, Mrs. Frances Rubac of Buckholts; five brothers, Franklin Rubac of Houston, Dension Rubac of Cameron; John and Ronny Rubac of Buckholts, and Lynwood Rubac of Plainview; two sisters, Mrs. Lillian Haister of Buckholts and Mrs. Bobbie Williams of Plainview.

### County Designated As Emergency Area For Farm Loans

Milam county has been designated as an emergency loan area by the Secretary of Agriculture, according to Henry N. Ivey, FHA county supervisor.

Due to drought conditions now existing in the Milam area there is need for farmers to obtain credit to continue normal farming operations.

An established farmer or rancher is eligible for a loan if he is a citizen of the United States, unable to obtain credit from other sources, has reasonable prospects of success with assistance of a loan and possesses the legal capacity to contract for the loan.

Loans may be made for the purchase of feed, seed, fertilizer, and other essential farm and home operating expenses, according to Ivey.

Loans may not be made for refinancing existing debts and to compensate applicants for their losses.

The interest rate on loans is 3 percent and repayment is scheduled depending on the purpose for which loan funds are advanced and upon the estimated income of the applicant. The loans may be secured by the best security available to protect the Government's interest.

Further information for emergency loans may be obtained from the County Supervisor, Ivey at his office, 109 W. 1st Street.

County Agents Notes

# Fish Hatchery Production Up

By J. D. Moore  
Milam County Agent

The Supervisor Inland Fisheries, reports that hatchery production for this year is up to standard and plans for deliveries of fingerling fish are fast becoming a reality. He also advises that the time for receiving applications for fish from this year's crop has passed. However he has advised that those who apply for fish on the required card after the first two weeks of August should not be disappointed because their application will be held in the Regional office and processed as soon as

operations are activated in the 1964 season. Fish cards may be obtained at the Game and Fish Commission Offices.

People who have requisitioned fish will receive cards notifying them of the time and place for the delivery of their fish. If your lake or pond is not ready to receive these fish due to a shortage of water, you are asked to please notify the sender of the card as soon as possible. If there is time to write him a note, if not call him by telephone. This would prevent the hatchery men from hauling fish which are not needed all over the country. Also, it is advisable for you to meet the hatchery men at the time and place designated on the card, because the hatchery men have a rather rigid schedule which they maintain. A short delay at one place would disrupt the time schedule and would inconvenience many people. It is the desire of the Game and Fish Department for you to have the fish needed, however, it is also their desire that the fish not be wasted.

## Cotton Defoliation Guides Available

The Texas cotton crop ready for machine picking or stripping is no small operation. Last year 77 percent of the states' crop was harvested by mechanical means and the use of defoliants or desiccants reached an all-time high, reports Fred C. Elliott, extension cotton specialist.

To emphasize the importance of this phase of cotton production, Elliott said that in 1948 only 2,000 farms in 50 Texas counties used these harvest aids. In 1962, they were used on 82,219 farms in 164 counties and on 4,750,000 acres of cotton at a cost of more than \$17 million.

In order for cotton producers to have the latest information on the recommended harvest aid chemicals, Elliott has recently released the 1963 "Cotton Defoliation Guide for Texas." Copies of the leaflet are available from the offices of local county agents or from the Agricultural Information Office, College Station.

In the guide, Elliott has listed the recommended defoliants and desiccants along with their chemical and trade names and the amounts of each which should be used per acre. Both dusts and sprays are included.

In addition, he has included important information on many aspects of the harvest aid program. He especially calls attention to the need for following the instructions printed on the chemical containers and offers other hints on harvesting cotton for the best yields and quality.

He suggests a visit with the local county agent for detailed information on other cotton production problems and for a copy of the guide, L-145.

## 1964 Feed Grain Program Announced

College Station, August 22 — Major provisions of the 1964 Feed Grain Program have been announced by the U. S. Department of Agriculture and basically will be the same as in 1963.

The major change is an increase in the top limit on diversion from a farm's base acreage with an increase in the rate of payment for maximum diversion. This, the USDA said, is intended to encourage producers to divert additional feed grain acres and to increase their income.

Under the 1964 program a producer may divert as much as 50 percent of his feed grain base acreage compared with a top of 40 percent in 1963. Those who divert from 40 to 50 percent will receive diversion payments at the maximum rate for all acres diverted. As before, the maximum acreage diversion will be 25 acres if this is more than 50 percent of the base.

Producers who divert at least 20 percent of their feed grain base will be eligible for payments computed by multiplying the number of acres diverted times 20 percent of the normal yield times the county total price support rate for the grain diverted. For acres diverted between 20 and 40 percent of the base, payments will be based on 50 percent of the normal yield times the total county support rate. A diversion from the base between 40 and 50 percent (or 25 acres if this is larger) will earn payments for the producer of 50 percent times the normal yield times the total county support rate. Payments will not exceed 20 percent of the value of the land, diverted.

The total national average price-support levels in 1964 will be the same as in 1963, but a slightly larger proportion of the support will be made available through loans. Payments-in-kind for both diversion and the non-loan part of price support will again be made in the form of negotiable certificates. The sign-up period for both fall and spring sown crops is expected to be early in 1964.

WHITE SCALE INSECTS IN SHRUBBERY — A number of calls have been received concerning mealy bugs (white scale in shrubbery.) Due to the density of the shrubbery and different stages of the life cycle of these insects, two applications of Malathion at the rate of two tablespoons per gallon of water is necessary for control. Spray applications at 4 to 5 day intervals should be made.

## St. Anthony School To Open Sept. 3

## How to make dreams of going to college come true!

Every bright, ambitious youngster dreams of going to college. But, with college costs zooming, as they are today, many a parent finds it difficult to have enough cash on hand to make this dream come true. This is where a Citizens low cost loan comes in. It eliminates the need for large lump sum outlays. It extends repayments over a period of years, enabling you to meet them on a monthly basis, without undue strain on your income or budget. You can borrow for one to four years schooling at any level.

If your children are still some years from college age, let us help you set up a systematic savings plan, that will provide the money, when the time comes. We'll tailor the plan to your family needs, your children's ages, your income.

## Couple United Church Ceremony

In a candlelight ceremony performed Saturday evening at the First Christian Church in Cameron, Miss Anita Archer of Cameron and Charles Arthur Wallace of Houston exchanged wedding vows. The Rev. Ted H. McElroy of Waco, assisted by the Rev. Kenneth Haley of Cameron, officiated.

A background of white goddess glads flanked with six large 7 branch candelabra and decorated with deep green Comedor a n d white satin were used in decorations at the church altar. A white kneeling rail was placed in front of the floral arrangement.

Mrs. Ted E. McElroy of Waco furnished traditional wedding music and accompanied Frank M. Harrell, Jr. of Waco, soloist. Mrs. Keith Tune of Irving gave a reading from sonnets from the Portuguese by Browning.

The bride was given in marriage by her father. She wore a gown of Alencon lace and silk organza over poi de soie. The empire bodice was fashioned with a scoop neckline and long tapered sleeves. The controlled princess skirt was embroidered with pearl studded lace applique that fell in soft, unpressed pleats which extended in-

to a chapel train. Her silk veil of illusion cascaded from a crown of pearlized orange blossoms. She carried a bouquet of white phalaenopsis orchids and stephanotis atop a prayer book. Lilly of the valley was attached to the white satin streamers of the bridal bouquet.

Miss Helen Ittis of Corpus Christi was maid of honor. Bridesmaids were Mrs. Norwin Hughes of Cameron, and Miss Florence Wallace of Houston, sister of the bridegroom.

The attendants wore sheaths of apricot satin - back silk organza and matching accessories. They carried semicrescent bouquets of apricot carnations entwined with English ivy.

Miss Janet Burke of Cameron was flower girl and Tommy Hart of Lexington was ring bearer.

A. L. Sheppard of Houston served as best man. Groomsmen were Phillip B. Welborn of Houston and Alvin Mullinax of Cameron.

Ushers were Harold Curlee of San Antonio, cousin of the bride; Lawrence Tiller of Houston and Fred Pearce of Sacramento, California, cousin of the bride.

A garden reception following the ceremony was held at the home of the brides parents, 702 East 10th Street where hurricane lamps trimmed with white ribbon decorated the yard. White caladiums and summer flowers formed the background.

The brides bouquet served as a centerpiece at the register where Mrs. R. E. Burke registered guests. The bride's table was laid with white tulle over satin and held an antique, hand - painted china punch bowl and the three tiered wedding cake. Centering the table was a dresden cherup holding a crystal bowl of white carnations, orange blossoms and 5 hurricane lamps forming the outline of a cedar tree.

Members of the houseparty were Mrs. Stanley Hughes and Miss Marilyn Hughes, both of Fort Worth; Mrs. T. L. Jacks and Miss Peggy Hightower, both of Waco; Mrs. Fred Pearce of Sacramento, California, Mrs. Bill Hipp of Irving, Miss Bette Brown of Lexington, Mrs. A. L. Shepard and Miss DeAnne Wise, both of Houston; and Mrs. Brann Allison, Miss Diane Howard and Miss Barbara Guerecky, all of Cameron.

FOR SALE — Owner retiring. Complete grocery and market, good business. Air conditioned, walk-in box, new compressors cold storage and frozen food lockers. Easily financed. White Box 3116, Ridgecrest Station, Bryan, Texas.

## Parties Honor Wallace Couple

A number of parties honored Mr. and Mrs. Charles Wallace last week before their wedding Saturday evening at the First Christian Church, Cameron.

Miss Helen Ittis of Corpus Christi and Mrs. Norwin Hughes of Cameron were co - hostesses for a party August 16 at the home of Mrs. Sam Harrell.

White asters with apricot accents decorated the home for the morning coffee. Guests included the brides attendants and members of the houseparty.

Mr. and Mrs. C. H. Williams of Houston, parents of the groom, were host for a rehearsal dinner Friday evening.

Tables were decorated with tallman roses for the buffet dinner in the Texan Western Room.

The brides colors, white and apricot, were featured in decorations for the bridesmaids luncheon Saturday.

Mrs. Stanley Hughes of Fort Worth was hostess for the party at the Western Room of the Texan.

## PERSONAL MENTION

## NEW ENCYCLOPEDIA DESIGNED For Everyday Family Use

In these "do-it-yourself" days, it was only a matter of time until an encyclopedia was developed which, in addition to its comprehensive basic knowledge, also puts stress on practical information for everyday use in homes, schools and offices.

Such is the case with the new Encyclopedia International, published by Grolier Incorporated, the first totally new Encyclopedia in the last decade. Within its 20 volumes, both the student and the entire family will find literally thousands of "applied knowledge" entries to help them "do-it-yourself."

These entries range from such homemaker and male-interest topics as family budgeting, interior decorating, the use of power tools, and automobile ignition systems. This practical approach, of course, also carries over to the applied knowledge entries for junior and senior high school teenagers.

The thinking behind development of an encyclopedia which would have everyday use, began, Grolier people report, some four years ago. That's when the editors decided that three basic criteria had to be met. First, the new encyclopedia had to reflect the outstanding events which have shaped the thinking of the world during the past decade.

Obviously, the outstanding characteristic of the past decade has been man's entry into space. And the new Encyclopedia International reflects this.

Second, the editors felt it important to draw on the knowledge of the world's leading authorities in each subject, particularly since many of the subjects either were new entirely, or had not been updated

The Encyclopedia International puts stress on practical information for everyday use. While the highschooler above uses the International as an aid to her homework, Mom returns a volume after looking up an applied knowledge entry of use to homemakers.

for 10 years. Hence, there are more than 1,700 specialist contributors to the encyclopedia, including 10 Nobel Prize Winners.

Third, the editors realized that all the basic or applied knowledge in the world wasn't truly valuable unless it also was understandable. Thus, all articles in the encyclopedia are written to clarify as well as to inform. More than 18,000 illustrations, 8,000 of them in color, aid in this effort.

## A Look At

## SPORTS

BY ROBERT MANN

Yoemen coach George Kirk leaned back in his chair early Monday afternoon, toyed with a brightly polished football helmet, and talked casually about his morning workout with his gridiron potentials.

He talked with ease of the tough non-district schedule the Yoemen will face; gritted his teeth at the mention of future teams, forgot about the helmet, leaned forward and said:

"While I was playing high school ball I heard about the Cameron Yoemen and while I was at TCU in Ft. Worth I heard about the mighty Yoemen and Leo Jackson. As late as '50-51 the Yoemen were pointed with pride by every team in the state they ever played as, 'one of the toughest to beat,' showing interest in them, playing the toughest to beat."

This is what I want to mold a gain—a team the people of Cameron will support with pride. One that the opposition will respect as being tough, mentally and physically."

Kirk went into greater detail concerning his philosophy toward molding such a team.

## Cameron Youngster Gets Hole In One

George Foster, 13, shot a hole-in-one August 17 at the Calvert Country Club on number three green. He was using a four iron for the shot.

George was a first place winner in a state-wide Jr. Golf tournament held in San Antonio two weeks ago. The tournament was sponsored by the San Antonio Light and the Texas Section of the professional golf association.

George was playing with Mr. Baker, superintendent of the Bremond Public Schools, when he shot his hole-in-one.

He is the son of Mr. and Mrs. Bob Foster of Cameron.

## Dublin Plans Lake Civil War Battle Dedication Soon

Plans for the formal dedication of the \$14.7 million Lake Proctor were started here recently when 15 representatives from five Central Texas towns named Bill Gaines of Dublin general arrangements chairman.

Gaines said the dedication will take place early in November, probably November 10, depending on availability of several speakers of national importance being sought to make the dedication address. He said special music programs and a barbecue will be other features of the ceremony.

The reservoir, located in Comanche County, is nearing completion under the direction of the U. S. Corps of Engineers. Col. F. P. Koisch, district engineer of the Corps, said the lake will contain a total water storage pool of 374,200 acre-feet. Part of this space, 310,100 acre-foot will be utilized for the control of floods.

The Brazos River Authority is paying the costs for a 31,400 acre-foot space in the reservoir to be used for storage of conservation water. Cost of the conservation storage space is \$1,707,900. Cities in the area are mapping plans to use this water for municipal and industrial supplies.

The Central Texas community elected W. D. Raley of Dublin as secretary and appointed Jake Street of Hamilton, Seth Moore, Jr. of Stephenville, Dick Harbin of Dublin, H. N. Goodson of Hamilton and C. H. Locke of DeLeon as vice-chairman to represent their towns in the formation of the dedication plans.

## Civil War Battle Will Be Observed

The United States Navy, state officials, historical organizations and civic clubs will participate in the observance of the Civil War Battle of Sabine Pass, September 7-8.

This is the 100th anniversary celebration of the Federal navy defeat by Dick Dowling and his small band of Confederates with ceremonies and programs planned for Port Arthur and Sabine Pass.

The Destroyer U.S.S. Wren will be stationed in Sabine Pass Battlefield Park in honor of the occasion, with visitors welcomed aboard.

Saturday, September 7 in Port Arthur, a Civil War Round Table Discussion of Texas Coastal Defense during the Civil War will kick-off the two-day meeting of County Historical Survey Committees.

Attorney General Waggoner Carr will be the main speaker at the Statewide Centennial Luncheon and will talk on the "Significance of the Battle of Sabine Pass."

At 3:00 p.m. at Sabine Pass Battlefield Park, the commemorative ceremony will be held, with the laying of wreaths and firing of a salute.

Sunday, September 8 appropriate religious ceremonies will be held at the Battlefield Park. "The defense of the Texas coast during the Civil War is one of the brightest chapters in the Civil War history of Texas," said Mr. John Ben Shepperd of Odessa, president of the TCWCC. "The decisive defeat at Sabine Pass by Dick Dowling and his men prevented a serious attempt of Union invasion of Texas."

## AMA Issues Back To School Safety And Health Info

It's back to school for millions of American youngsters in a few weeks.

It's starting school for the first time for the kindergarten of first graders, several million of them.

There's no one season of the year that is best for physical checkups. In fact, the health care of your family should be a constant affair throughout the year.

But, if you have been putting off a visit to the family doctor for your small fry, now is a good time to phone for an appointment, with the reopening of school in the offing.

Your doctor will probably want to check the children's vision and hearing. Small children can, and frequently do, suffer gradual changes in their eyes or loss of hearing without realizing it. Either of the conditions can play havoc with school grades and social adjustment in the classroom. If your child wears glasses, they should be rechecked to make certain his prescription is still suitable.

The small child who can't see the blackboard clearly or can't hear the teacher's questions is frustrated and baffled.

A dental checkup also is important. Many schools now encourage pupils to bring a certificate from a dentist each year showing that an examination has been made. Small cavities can be filled before they become major dental problems, and potentially serious dental troubles often can be corrected if discovered early.

Ask your doctor also whether your children are properly immunized against the various contagious diseases that threaten children and adults. A return to the indoor life of the school room exposes the child to infection to a much greater degree than the outdoor life of the summer months. Vaccines against smallpox, polio, tetanus (lockjaw), whooping cough and diphtheria are now routine. New measles vaccines are now on the market. Make certain your family is protected.

If your child is planning to participate in vigorous sports on one of the school teams, let your doctor know. He will examine the youngster to make certain there are no health conditions that would interfere with participation. Schools now generally require a doctor's certificate for the student to "go out for the team."

Adults need periodic physical checkups too, even though they may feel fine. While scheduling examinations for the children, don't forget the older members of the family.

## Edwin Adams On 'T Honor Roll

Edwin Adams, a 1960 graduate of Yoe High School, was named to the spring semester honor roll at the University of Texas.

Adams was one of 267 students named to the roll by Dean John Arch White. He is the son of Mr. and Mrs. Edwin Adams, Buckholts, Texas.

## Peace Corps Test Is Scheduled For County-wide Area

Peace Corps placement tests are scheduled to be held August 24 at 8:30 a.m. for all interested Milam area residents.

Two testing centers are within a 60-mile radius of Cameron.

They are: Room 15 of the Post Office in Temple and Room 212 of the Federal Bldg. in Waco.

Douglas Kiker, director of public information for the Corps particularly urges anyone with foreign language background or a liberal arts degree from college to consider the peace corps; however, a college degree is not required for entrance.

A minimum age of eighteen and no maximum age limit is set up by the corps. There are a number of persons in their seventies serving in the 6,000 strong corps serving in 46 nations.

Total time served in the corps is two years, including a 10-12 week training period.

The Peace Corps pay all of a volunteer's expenses and furnishes administrative support to him abroad. The volunteer receives, at the completion of his services, a readjustment allowance of \$75 for each month of satisfactory service.

The placement test which is given August 24 consists of a half-hour section on general aptitude and another of the same length on modern language aptitude. The present placement test replaces a longer one which requires four to eight hours to complete.

## Ag Picture Pretty Sound....

Things are looking better in Milam agriculture than supposed possible at the first outset of the dry spell. Cotton, like maize, is coming in fast, good turnout. Only hitch thus far is the grazing grass for cattle and dairymen. Some are feeding. Still prices hold in area markets. Hero of the crop successes this year is fertilizer, that inert, but active stuff that has received a big reception among a larger number of farmers this year than in '63.

## Out Of The Past

### From Herald Files

**FROM THE 1961 HERALD**  
An editorial in this edition urges Cameron citizens to work together to start new enterprises. "We need and can successfully operate a broom factory, canning factory, cotton factory, a cigar factory and others if we get together."

And from the Clarkson reporter: "Miss Chandler starts the school here under favorable conditions as Billie Wingo has just bought a cistern for the school."  
Rev. Calvin Presley was named Temporary Chairman and L. Wilson temporary secretary of the newly formed Fruit and Truck Growers Assn. 150 acres were pledged to be planted in tomatoes, potatoes and melons for market.  
"Mr. Roy Smith, traveling agent for the Dallas News was in Cameron and was cordially greeted by friends. Roy is a Milam County boy and his friends wish him great success."

**FROM THE 1938 HERALD**  
Cameron Chapter, Eastern Star celebrates silver birthday anniversary.  
The Herald reports that WPA funds are available for street paving in Cameron.

Shirley Temple starts in Little Miss Broadway at Cameron Theatre.  
Weather report shows August a dry month with .64 inch of rain.

### A Close Look At Idea Of Selling Farm Vacations To City People

Dear editor:

With so many other grave problems facing the thinkers of the nation the farm problem generally has been ignored lately and it was therefore a pleasure to find an article in a newspaper last night getting back to the subject.

According to it, one way for a farmer to increase his dwindling income is to sell farm vacations to over - worked, wound - up city people. Instead of going to the beach or the mountains, a city family relaxes on a farm.

The way it works is, a wound-up city man comes out and spends a week or two in your home, away from the noise of the metropolis, where he can get close to nature, study your folkways, view the scenery, enjoy a simple life, help with the fascinating chores, watch the sun go down, eat three solid meals a day, walk through the countryside, sleep soundly, and awake to the sweet lowing of cows, which generally takes place around daybreak.

Then he pays you for all this, and you take the money and light out on a vacation of your own.

## LETTERS

College Station August 13, 1963  
Dear Mr. Albertson:

Thank you for sending me the August 8 edition of the Cameron Herald. Congratulations to you and Mr. Luecke for this outstanding edition. Your broad view - point coverage of Milam County agriculture is certainly inspiring. This kind of editorial support should certainly spur Milam County agriculture to a most prosperous future.

Sincerely,  
Jack H. Barton,  
Specialist Soil and  
Water Conservation

Now I don't know whether this will work or not, but I can testify that I have tried it on a limited basis and my advice to any farmer planning on making money off of city visitors is to watch his prospective clientele pretty close.

I mean, the first thing you want to do is steer clear of relatives and in-laws. You can do lots of business with them, but the financial gains are awfully meager. It's sort of like the foreign aid business, all you get is goodwill and that stops when the aid does.

If there are any city people who want to vacation on this Johnson grass farm, I want it understood it's cash in advance. I would not be interested in a swap where I'd have to spend a week in the city. I don't need to un-wind. I never have wound up.

Yours faithfully,  
J. A.

## New Commission Cuts Employees

**By Vern Sanford**  
Texas Press Association  
ANSTIN, Texas — Some 700 state employees scattered throughout Texas are getting a new set of bosses. Reason is the creation of the Texas Parks and Wildlife Commission on August 23.

James M. Dellinger, Corpus Christi contractor; A. W. Moursund, Johnson City rancher - attorney; and Chairman Will Odum, Austin geologist and engineer, make up the new three - man Parks and Wildlife Commission. They replace nine commissioners on the old Game and Fish Commission and six on the old Parks Board.

Many state employees, who wondered whom Gov. Connally would select to head the infant agency, now are worrying whether they themselves will remain on the payroll.

About 72 of the employees are in the Parks Department; some are managers of the state's 50 - plus parks system. Another 625 or so are in the field of game and fish. About 100 of these are in Austin offices - the rest out in the field.

Connally says the consolidation will eliminate some duplication of services and effort.  
One thing the state is sure to save on is per diems and expenses for the commissioners. The \$25 per diem plus travel, hotel and meals allotted the three new men should come to about one-fifth the amount spent in past years on 15 commissioners.

**HIGHWAY PATROLMEN NEEDED** — Col. Homer Garrison Jr., head of the Department of Public Safety, is looking for 100 additional highway patrolmen.

He asks applicants, aged 21 to 35, to contact him no later than September 14. Recruits will start to school November 19. Pay is \$412 a month while in training, \$453 on graduation.

Department will endeavor to assign the men to stations within 100 miles of their present homes.

**HOPE TO CUT TRAFFIC DEATHS** — Col. Garrison cast a gloomy eye at his crystal ball, and predicted a possible 31 traffic deaths in Texas over the three - day Labor Day weekend. But he hopes he is wrong.

"There is always a chance that the estimate can be proved too high," Garrison said, "if motorists will put forth a concerted effort to hold the line by driving within safe and legal limits, and remaining especially alert to the added dangers of holiday travel."

DPS has enlisted the aid of the Texas Safety Association, Texas Association of Broadcasters, Junior chambers of commerce, Texas Council of Safety Supervisors and the Texas Motor Transportation for a Labor Day "Operation Motorcade" — a concerted campaign to call attention to highway dangers.

**SCHOOL LAND BOARD MEMBER NAMED** — A Taylor attorney Wilson H. Fox — has been appointed by Attorney General Waggoner Carr to take Carr's place on the

## St. Anthony's School Set To Open September 3

CAMERON — St. Anthony's (Catholic) School opens Sept. 3 but the first full day of classes will be Sept. 5, according to the Rev. John Geiser, pastor of St. Monica's Parish.

The school bus will run from the first day. Classes on Sept. 3-4 will be half-day only. Approximately 180 students are expected.

Registration will be during the last week of August, to be announced by Sister M. Relindis, principal.

Teachers will be Sister M. Relindis, Sister Miriam Joseph, Sister Euphonia, Miss Mary Randolph, Mrs. Jerome Darilek and Mrs. Raymond McLeod.

## New Law Requires More Jail Terms

Changes in the state's "hot check" laws, effective August 23, will give Cameron merchants added protection against passers of hot checks.

State legislation has ruled that anyone passing and convicted under hot check laws will receive a mandatory jail sentence. First offenders can receive a maximum penalty of two years in jail and a \$1,000 fine. This applies to checks less than \$50.

The passing of a check of more than \$50.00 falls under the state's felony laws.

On the other hand, the new law requires merchants to notify the check passer by telephone or letter within 10 days that his check is no good. Then he must send a registered letter to the person, notifying him of the bad check. If payment still isn't made prosecution by the state follows.

Another new Texas law, also effective August 23, takes all jurisdiction away from justice-of-the-peace courts in hot check cases.

There are still plenty of hot days left this summer. Are you going to sweat thru those days? No need to.... Just drop by Hudson's and look at a **FEDDERS** new .... **Air Conditioner HUDSON'S Waco Highway Cameron, Texas**

## Draft Board Sept. Quota Big

AUSTIN, Texas, August 6 — State draft boards will get their biggest monthly quota in nearly two years in September.

The call for September asks for 609 men for Army service, Colonel Morris S. Schwartz, state Selective Service director, said Tuesday.

This is the biggest state quota since November 1961, when the quota was 923.

The September call of 609 compares with 522 for August, 349 for July, and 187 for June. The September call is the state's share of a national quota of 12,000 men.

The state Selective Service director also announces pre - induction physical and mental examinations for 2,000 men in September. Local board quotas for the September call already have been figured and sent to the state's 137 local boards.

The September quota will be filled with men who are at least 22 years old on September 1, except volunteers and those legally termed delinquent under the law, who may be younger.

CUSTOMER...INVESTOR...WORKER.

These three people are symbolic of the all-important "human side" of Texas Power & Light Company.

The customer is one of more than 400,000 enjoying so many comforts and conveniences which are possible through the dependable, economical electric service provided by TP&L.

The investor is one of the thousands of people who, through their investments of savings dollars, supply the funds which finance the construction and operation of the facilities necessary to produce and deliver electric energy.

And, the worker represents the more than 2,200 employees of TP&L who plan, direct and carry out hundreds of specialized functions to provide electricity and related services.

All of these roles are typically American... the right to expect an essential service at a fair price... the right to expect a reasonable return on investments... and the right to work with a free choice of jobs and the opportunity to advance and earn more as abilities merit.

## Take your problems to Church this week —

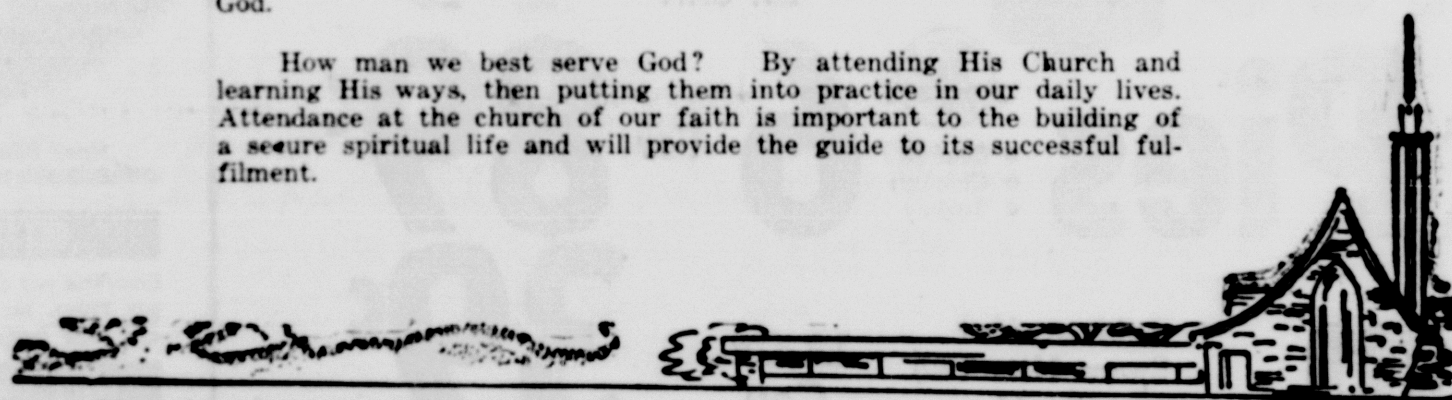

*millions leave them there!*

### FOR GOD AND COUNTRY ....

The above is the opening phrase in the preamble to the constitution of a well known War Veterans organization. The preamble is recited at each formal opening. Thus, first things are placed first and it follows that one may best serve his country by first serving God.

How can we best serve God? By attending His Church and learning His ways, then putting them into practice in our daily lives. Attendance at the church of our faith is important to the building of a secure spiritual life and will provide the guide to its successful fulfillment.

### Sharp Group Attend Reception In Austin

Mr. and Mrs. L. A. Petty, Misses Agnes and Norma Rinn and Miss Doris Gamble attended a reception in Austin Sunday from 7 to 9 p. m. honoring Dr. and Mrs. Fred Brooks on their golden wedding.

Mr. and Mrs. Nick McBurnett and Nick Jr., of Houston, were visiting relatives during the week. Mrs. McBurnett and Nick Jr. were in Waco with her sister a few days.

Linda Coffman of Dallas spent the weekend with home folks. Gene Massey and son visited Sunday afternoon in McDonald village. Gene was a former resident of this community.

Miss Mary Lamb of Floresville spent the weekend with Patricia Garner and visited among friends. Sunday Mary is a daughter of George Lamb a former superintendent in the Sharp School.
